

Environmental Policy

Niagara Falls Castings (UK) Ltd is committed to achieving environmental best practice and minimising environmental impact throughout its business. With this in mind the company pledges to:

Comply as a minimum, with all legislative requirements and seek to achieve continuous improvement on specified standards where practical to do so.

Aim to increase the efficiency of its processes and reduce the production of waste per tonne manufactured.

Commit to safe operating procedure in the handling and storage of hazardous chemicals to minimise risk, protect employees, the local community and the environment.

Recognise and take action with regard to the concerns of any interested party (regulator, public, stakeholder, insurer or other body) to improve the environmental performance of the business and to ensure effective communication both internally and externally.

Make available necessary resources to implement this policy and take all necessary steps to ensure the policy is understood and is being implemented and maintained at all levels.

Aim to implement an environmental management system to provide a framework so that the objectives of the policy are achievable.

In order to implement this policy, we will set objectives and targets to work towards continuous environmental improvements in all areas of the business.
